

Linux User Group of VCU, October 15th Meeting Minutes

Sorry that this is short, but the meeting was mostly used to package up the CDs we intend to distribute at the demo day tomorrow.

Linux User Group Demo Day is tomorrow, Tuesday October 16th from 10am to 2pm.
Please stop by.

Today, we packaged up all of the CDs we intend to give away tomorrow at the Demo Day.

We will have Fedora 7, Fedora 7 KDE, Ubuntu 7.10, Xubuntu 7.10, Xubuntu 7.10 as well as OpenCD 7.10 which contains 37 free and open source programs, including OpenOffice, Blender and GIMP.

RDisk can be used to help keep data files synchronized between two different computers.
